

SchoolMessenger for West Noble Schools

Our school will start utilizing the SchoolMessenger Text Messaging Service after Winter Break. This service will be used in conjunction with REMIND at this time. A WN Skyward account is needed to sign up for SchoolMessenger.

WNHS and WNMS Students - If you have not added your cell phone number yet to your Skyward account please do so soon. As weather delays/cancellations happen this winter West Noble would like to send you messages using a new product called SchoolMessenger. Once you have your cell number entered into your Skyward account you can then sign up to receive text messages when delays occur. School messenger also has an app available in the App store or Google Play store to download.

Steps

1. Log into your Skyward account
2. Add your cell number to your profile under the My account drop down.
3. Once you have added your number, wait 24 hours to sign up for text alerts. This gives Skyward time to sync your number to School Messenger.
4. Scan the QR code below or text a **y** or **yes** to 67587.
5. You are all set to receive texts about school info or delays.

i Information on SMS text messaging and Short Codes:

SMS stands for Short Message Service and is commonly referred to as a "text message". Most cell phones support this type of text messaging. Our notification provider, SchoolMessenger, uses a true SMS protocol developed by the telecommunications industry specifically for mass text messaging, referred to as "short code" texting. This method is fast, secure and highly reliable because it is strictly regulated by the wireless carriers and only allows access to approved providers. If you've ever sent a text vote for a TV show to a number like 46999, you have used short code texting.

i Información sobre los mensajes de texto SMS y códigos cortos:

SMS significa "servicio de mensajes cortos" y comúnmente se conoce como un "mensaje de texto". La mayoría de los teléfonos celulares son compatibles con este tipo de mensajes de texto. Nuestro proveedor de notificación, SchoolMessenger, utiliza un cierto protocolo SMS desarrollado por la industria de las telecomunicaciones específicamente para enviar mensajes de texto en masa, referido como mensajes de texto "código corto." Este método es rápido, seguro y muy confiable, y está estrictamente regulado por los proveedores de servicios inalámbricos y sólo permite el acceso a los proveedores aprobados. Si alguna vez ha enviado un voto de texto para un programa de televisión a un número como 46999, usted ha usado los mensajes de texto de código corto.
